

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

JUL 18 2011

OFFICE OF
SOLID WASTE AND
EMERGENCY RESPONSE

The Honorable Kent Conrad
United States Senate
Washington, D.C. 20510

Dear Senator Conrad:

Thank you for your letter of May 26, 2011, to President Barack Obama in which you asked that the U.S. Environmental Protection Agency (EPA) finalize a rule regulating coal combustion residuals (CCR) under Subtitle D of the Resource Conservation and Recovery Act (RCRA) as soon as possible. I appreciate your comments regarding the CCR rule that the EPA proposed on June 21, 2010.

As you note in your letter, the regulation of CCR intended for disposal is appropriate, and the agency agrees with you that operators should meet appropriate standards, or be held accountable. The agency also shares your belief that the beneficial use of CCR, if conducted in a safe and environmentally protective manner, has many environmental advantages and should be encouraged.

Under the proposal, the EPA would regulate the disposal of CCR for the first time. As you know, the proposal sought public comment on two different approaches under RCRA. One option would treat such wastes as a "special waste" under Subtitle C of the statute, which creates a comprehensive program of federally enforceable requirements for waste management and disposal. The second option, as you indicated in your letter, would be to establish standards for waste management and disposal under the authority of Subtitle D of RCRA. The agency is currently reviewing and evaluating the approximately 450,000 public comments received on the proposal, many of which addressed the specific issues raised in your letter, before deciding on the approach to take in the final rule based on the best available science. The agency will issue a final regulation as expeditiously as possible.

Again, thank you for your letter. If you have further questions, please contact me or your staff may call Carolyn Levine, in the EPA's Office of Congressional and Intergovernmental Relations, at (202) 564-1859.

Sincerely,

A handwritten signature in black ink that reads "Mathy Stanislaus". The signature is written in a cursive, flowing style.

WASHINGTON, D.C. 20460

JUL 18 2011

OFFICE OF
SOLID WASTE AND
EMERGENCY RESPONSE

The Honorable Michael B. Enzi
United States Senate
Washington, D.C. 20510

Dear Senator Enzi:

Thank you for your letter of May 26, 2011, to President Barack Obama in which you asked that the U.S. Environmental Protection Agency (EPA) finalize a rule regulating coal combustion residuals (CCR) under Subtitle D of the Resource Conservation and Recovery Act (RCRA) as soon as possible. I appreciate your comments regarding the CCR rule that the EPA proposed on June 21, 2010.

As you note in your letter, the regulation of CCR intended for disposal is appropriate, and the agency agrees with you that operators should meet appropriate standards, or be held accountable. The agency also shares your belief that the beneficial use of CCR, if conducted in a safe and environmentally protective manner, has many environmental advantages and should be encouraged.

Under the proposal, the EPA would regulate the disposal of CCR for the first time. As you know, the proposal sought public comment on two different approaches under RCRA. One option would treat such wastes as a "special waste" under Subtitle C of the statute, which creates a comprehensive program of federally enforceable requirements for waste management and disposal. The second option, as you indicated in your letter, would be to establish standards for waste management and disposal under the authority of Subtitle D of RCRA. The agency is currently reviewing and evaluating the approximately 450,000 public comments received on the proposal, many of which addressed the specific issues raised in your letter, before deciding on the approach to take in the final rule based on the best available science. The agency will issue a final regulation as expeditiously as possible.

Again, thank you for your letter. If you have further questions, please contact me or your staff may call Carolyn Levine, in the EPA's Office of Congressional and Intergovernmental Relations, at (202) 564-1859.

Sincerely,

Mathy Stanislaus
Assistant Administrator
